

Postgrowth Era Shrinking Cities & Regeneration

Online Symposium

The idea that society needs to pursue endless economic growth is nowadays increasingly questioned. Cities, with their insatiable demands for goods and energy, have been traditionally a key driver of growth. But growth has become environmentally and socially unsustainable. In this workshop we will debate how cities should adapt to a post-growth scenario based on transformative policies and practices of shrinking cities and urban regeneration.

DATE: 11/5/2023 Thursday

TIME: 15:00-17:50 UTC+8

 (Beijing Time)

09:00-11:50 UTC+2

 (Central European Time)
